## **PetSafe® 32 Inch Model PHP17-11666 Pet Bed**

\$ 88.48 \$ 70.78 You Save: \$ 17.70

The **PetSafe® Heated Wellness Cushion** is designed for your pet's **warmth and comfort** over extended periods of time. The **safe, low-voltage** warmer offers delightful comfort for any pet. The 2-sided cover reverses to chocolate or sand color. The cushion is equipped with a **double insulated, chew-resistant cord** for safety and durability. The Heated Wellness Cushion produces a **soothing therapeutic heat**. When your pet lays on the cushion, it heats up to a maximum of 102.5° (the pet's core temperature) to prevent your pet from over heating or panting.

The Heated Wellness Cushion is designed for **soothing heat and softness** to keep your pet extra cozy. Controlled **therapeutic heat** will relax and rejuvenate your pet while they rest comfortably in **cushiony softness**. The cushion produces a **low-level heat** that will feel warm to your pet, but not hot to the touch. Your pet will be able to enjoy their Heated Wellness Cushion for extended periods of time.

Size: 31.5"L x 25.6"W

Weight: 3.58 lbs.

9 Watts

Safety Precautions:

- Check the unit, power cord, or plug before each use to insure that there is no damage.
- Check the pad to ensure that there is no sudden rise in temperature when the pad is plugged in. If a sudden temperature rise is detected, do not use the pad.

- Only use the pad with the included cover at all times.
- If the Heated Pet Pad is to be used in a pet cage or crate, allow enough space for your pet to be able to move completely off of the bed.
- Do not allow your pet to chew on either the power cord or the heating unit.
- Do not place the Heated Pet Pad near heaters or open flames.
- Submerging the power cord or heating unit under water may increase the possibility of a fire or electric shock.
- Try not leave your pet unattended while they are using the Heated Pet Pad.
- When not in use, unplug the pad.
- **The Heated Wellness Cushion is for INDOOR USE ONLY.**
